Manufacturing tolerance +/- 5mm on headbox & slatrod.
All dimensions are in (mm). If installed in ceiling always allow for removal for servicing.

ARCHITECTS SPECIFICATION
The projection screen shall be an Australian made Screen Technics ElectriCinema Type A model _____ with Unity White Black Backed fibreglass surface and shall be located where indicated on the plans.
Installation shall be done in accordance with the manufacturer's instructions

INTRODUCING THE ELECTRICINEMA HI CONTRAST GREY

When you don't have full control of ambient light conditions, grey assists the projector in improving black in the spectrum by shifting the contrast band towards the darker scale. This improves overall colour saturation, but with the loss of some brightness normally well compensated for by today's projectors.

Product Features

DESCRIPTION:
Industry leading Integrated Connect Control with IP, IR, Close Contact, 12 v Trigger and Link Switching to other Connect controlled devices

SURFACE:
Hi Contrast Grey Black Backed Fibreglass - Gain 0.8

HEAD BOX:
Designer headbox canister in powder coat white / black optional

BRACKETS:
Universal wall / ceiling bracket with full width adjustability for ease of install

ROLLER DIAMETER:
51mm Heavy Duty Roller for enhanced lay-flat qualities

OTHER FEATURES:
Power located at opposite end of headbox canister from Low Voltage Control, improving installer safety outcomes.
